

February 2021 Updates to our Privacy Policy

We've updated our Privacy Policy

At ResearchGate, we always want to make sure you – our 19+ million members – get the best service possible from our platform. That's why we're constantly looking for ways to improve, like updating our [Privacy Policy](#) to reflect changes in the legal landscape or changes we made to our service.

Here are the recent changes we made to our Privacy Policy:

- In accordance with UK GDPR, we added information about our UK representative in sec. 12.
- We no longer use the services of the technology provider "Lotame" and therefore deleted the according section and references.

Please read through the full [Privacy Policy](#).

Thanks for being part of our global network and helping us make research open to all!
